Information Management Policies Assessment for City Transportation Systems (IMPACTS)

IMPACTS is an international network of European, North American and Latin American cities established as a forum for exchanging information about urban mobility and transportation policies. The diverse cities recognise that they share similar problems, and recognise the value in sharing information as they work toward their common vision of sustainable transportation solutions.

IMPACTS is a federation of three organizations:

IMPACTS Europe

IMPACTS Europe is an association registered in France with its newly appointed Secretariat located in the offices of MVA in London. The network brings together political decision makers from Amsterdam, Barcelona, Berlin, Brussels, Budapest, Geneva, Göteborg, London, Paris, Rome, Stockholm and Vienna.

IMPACTS North America

IMPACTS North America was created in 1996 on the initiative of NACTO, the National Association of City Transportation Officials. The cities are typically represented by high-ranking transportation officials, who work directly with their Mayors and are responsible for proposing and implementing mobility strategies.

IMPACTS America Latina

IMPACTS America Latina was formed in 2004. The first conference was held in Quito. IMPACTS Europe through its member cities of Barcelona and Geneva provide assistance, and further collaboration between the European and Latin American cities is planned.

Conference Registration & Help Desk

The registration desk staffed throughout the conference is located in STEINSAAL II, next to the WAPPENSAAL conference room. It will open from 09:00 on Monday 13 March.

Internet Café - connections are provided in the registration area for delegates.

Vienna Traffic Control Centre - The possibility to participate in a guided tour of the Vienna Traffic Control Centre is offered. Please indicate your interest on the Registration Form.
