ROUNDTABLE DISCUSSION ON FREIGHT MANAGEMENT STRATEGIES IN MAJOR CITIES

(1ST DRAFT)

Chair : Maria KRAUTZBERGER, Berlin

Moderator : N..... (to be determined)

PRESENTATION THAT HAVE YET BEEN CONFIRMED

- **Dr. KUNST, Berlin, Germany** : the current reflection in Berlin Senate and the political measures to be decided and applied in the next future.
- **Pere NAVARRO, Barcelona** : The City of Barcelona has defined a new strategic plan for a more sustainable good deliveries management in the greater Barcelona. This plan will be in operation in March 2001. In addition, Barcelona is currently part of a European Consortium on good delivering problems. The presentation would report the different steps of the process.
- **Heinz SODEIKAT, ERTICO & SIEMENS** will make a presentation on this theme : “ The impact of E-Commerce and Internet applications on City traffic”

Daniel AUGELLO, Renault, Towards public-private co-operations for effective freight management in big cities.

CONTACTS

- **Dominique DUCASSOU** Deputy Mayor could make a presentation of the policy of the City of Bordeaux (France) which has yet a strong experience in good delivering management and the use of clean vehicles.

The City of Stockholm (Sweden) which is partner in the E.U project ELCIDIS “Thermie” ha also been approached for presenting the current works of the consortium.

“**La Poste**” The French Post Administration has recently invested in a fleet of electric vehicles (more than 300) ; Their representatives would present the result and the next steps of this experience.
