

2010 IMPACTS Conference Rome

Programme

Urban Sustainable Mobility – New Projects and Technologies towards Sustainability / Rome meets Europe

Palazzo delle Esposizioni
Via Milano 9/A
00184 Roma

30 June -2 July 2010

mvaconsultancy

ROMA

Information Management Policies Assessment for City Transportation Systems (IMPACTS)

IMPACTS is an international network of European, North American and Latin American cities established as a forum for exchanging information about urban mobility and transportation policies. The diverse cities recognise that they share similar problems, and recognise the value in sharing information as they work toward their common vision of sustainable transportation solutions.

IMPACTS is a federation of three organizations:

IMPACTS Europe

IMPACTS Europe is an association registered in France with its Secretariat located in the offices of MVA Consultancy in London. The network brings together political decision makers from Amsterdam, Barcelona, Berlin, Brussels, Budapest, Geneva, Göteborg, London, Paris, Rome, Vienna and Zagreb.

IMPACTS North America

IMPACTS North America was created in 1996 on the initiative of NACTO, the National Association of City Transportation Officials. The cities are typically represented by high-ranking transportation officials, who work directly with their Mayors and are responsible for proposing and implementing mobility strategies.

IMPACTS America Latina

IMPACTS America Latina was formed in 2004. The first conference was held in Quito. IMPACTS Europe through its member cities of Barcelona and Geneva provide assistance, and further collaboration between the European and Latin American cities is planned.

Welcome to Rome

I would like to extend a warm welcome to our city on behalf of the Mayor of Rome.

As in previous years we invite delegates to join us in an informal and relaxed debate about issues that affect all our cities, whether they are large or small. This year's conference focuses on the theme of 'Urban Sustainable Mobility'. The topic responds to new projects and technologies that aim to achieve sustainability in our cities.

Across the globe 2010 is a year of challenging economic times. Some governments find themselves in deficit, forced to cut expenditure on services including transport, yet we all need to invest in sustainable transport to keep our cities moving forward. At this year's conference we will exchange information about actions we are taking and debate the difficult task of securing funding to finance urban mobility projects.

I look forward to seeing a strong representation from member cities at what has become a vibrant annual gathering, and look forward to meeting you all in Rome this summer.

Sergio Marchi

President of IMPACTS Europe

Conference Registration & Help Desk

The registration desk staffed throughout the conference is located next to the conference room. It will open from 09:30 on Thursday 1 July 2010.

Interpretation in French and English will be provided for all conference sessions.
